

Termaca Termite Colowis Battle
By Kush

I walked out into my neighborhood and I saw footprints. They were huge. I saw caterpillars on the side. I took a scan of them and they were parasites of a mystery creature.

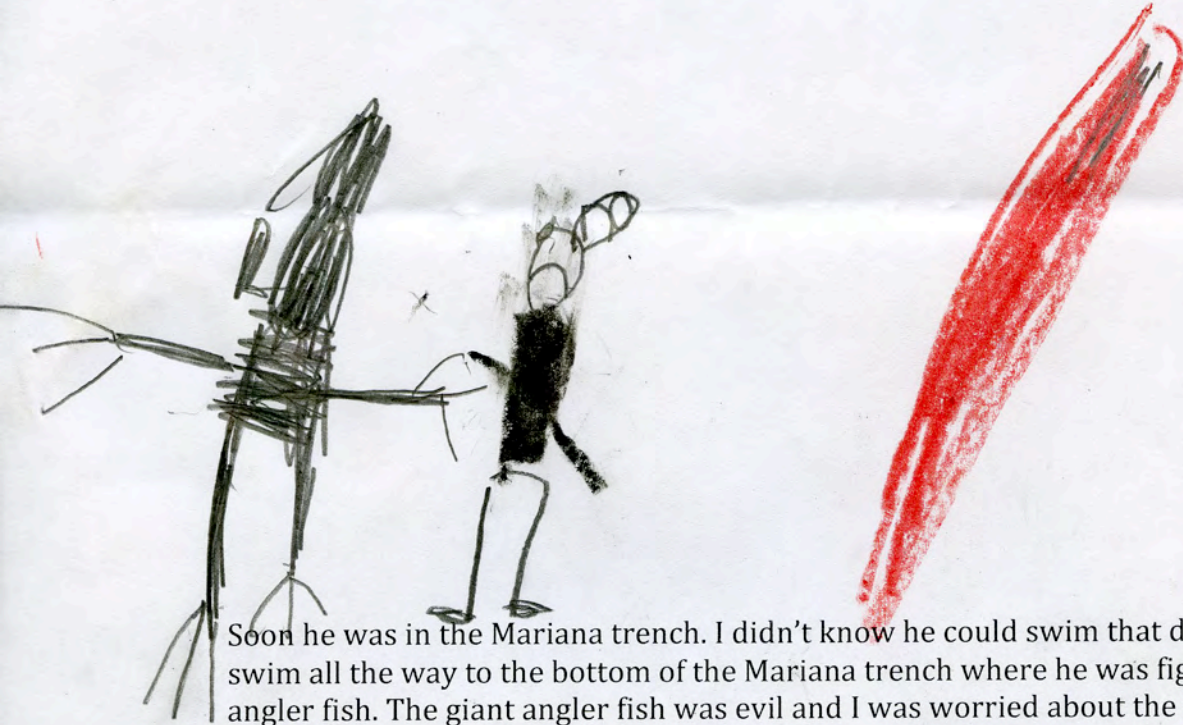

I followed the footprints to the desert. When I got to the desert, I saw the mystery creature's shadow. It chased me around the whole desert.

Soon the mystery creature bit my shoe off and ate it for lunch. My shoe was green and he thought it was a shrub. I kept going with one shoe and went off to find him.

Soon he was in the Mariana trench. I didn't know he could swim that deep. I had to swim all the way to the bottom of the Mariana trench where he was fighting a giant angler fish. The giant angler fish was evil and I was worried about the mystery creature. While they were fighting, I got a scan of it. The mystery creature was called termaca termite colowis, that means termite deer eating shrubs bear.

Kush Chand Entry

I stood there watching the battle, it was a battle of good and evil. In the end, termaca termite colowis won and we lived happily ever after.
