

Two Worlds Together

When I look out the

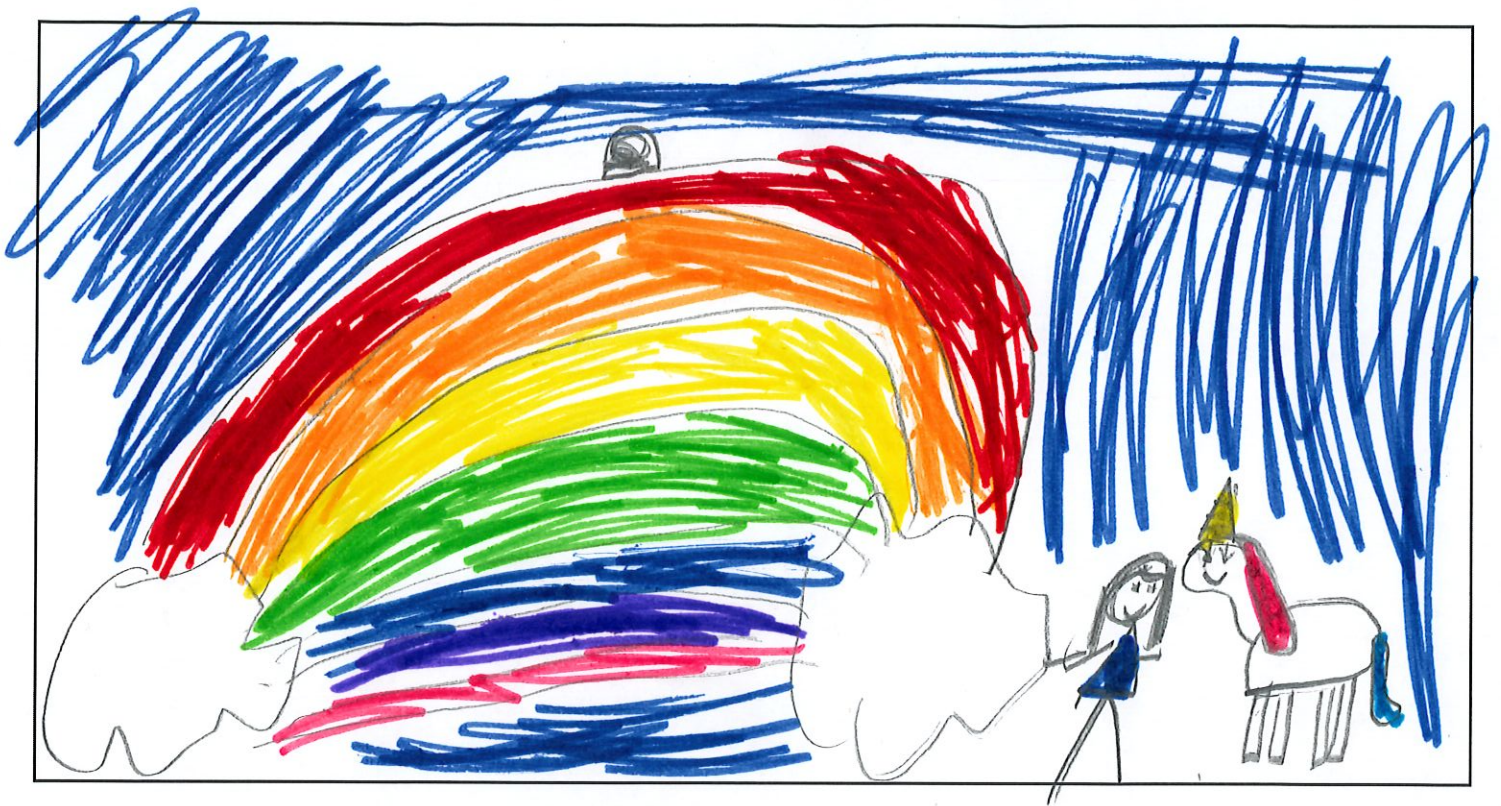

window I see a

rainbow in my backyard.

One day I went to see

it, and I tapped on the

cloud, and then a unicorn,

popped up. I met the

unicorn, and then we saw

that unicorn land and

human land cannot come

together because there

was a magical button

at the top of the rainbow

that has to get pushed

to come together. So what

happened was they tried

and tried to touch the

button on the rainbow

but they couldn't reach

the button. They needed

to figure out a code for

the button to come down.

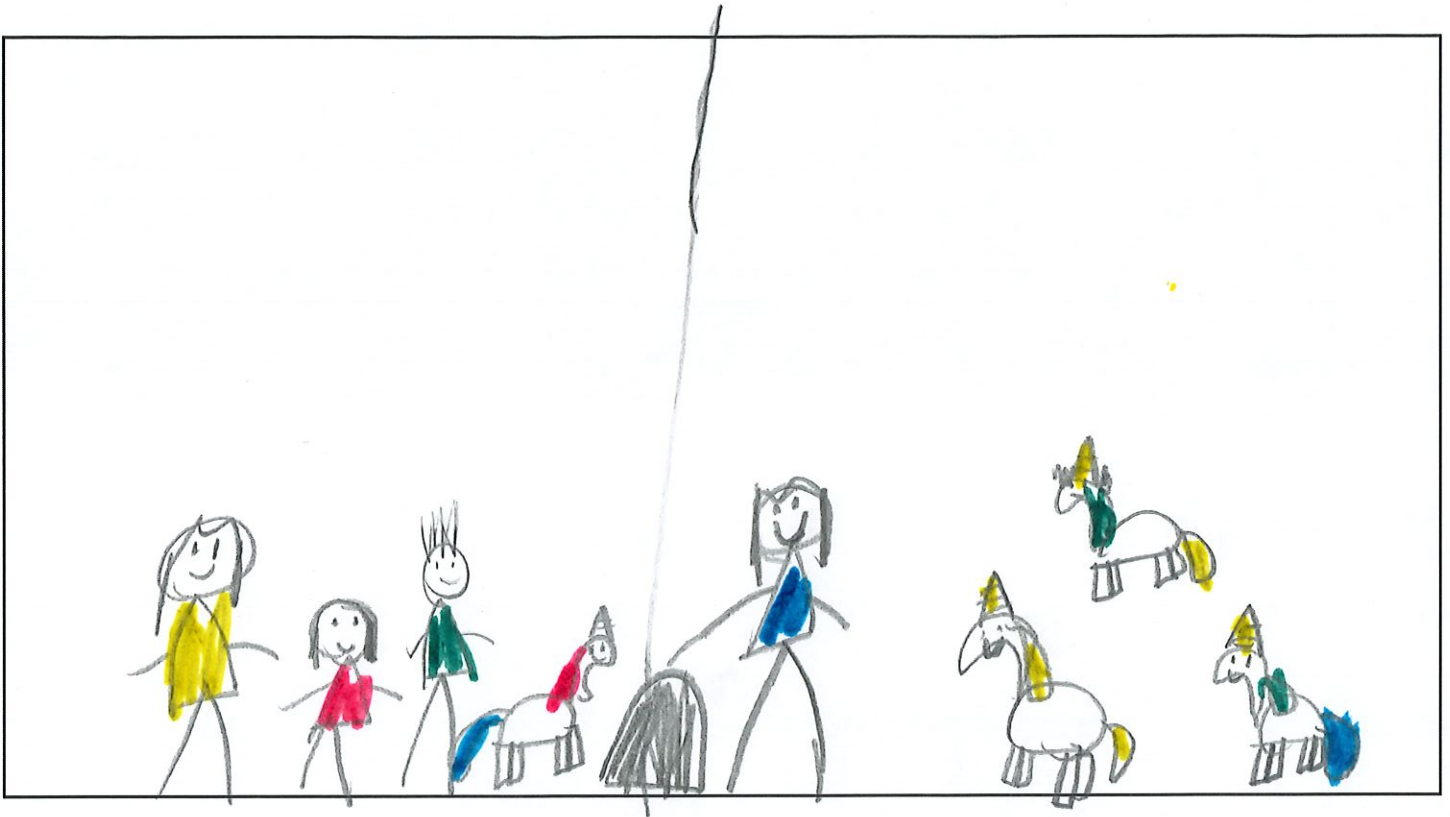

They figured out it was

red, orange, yellow, green, blue

purple, pink They hit the

button and had a dance

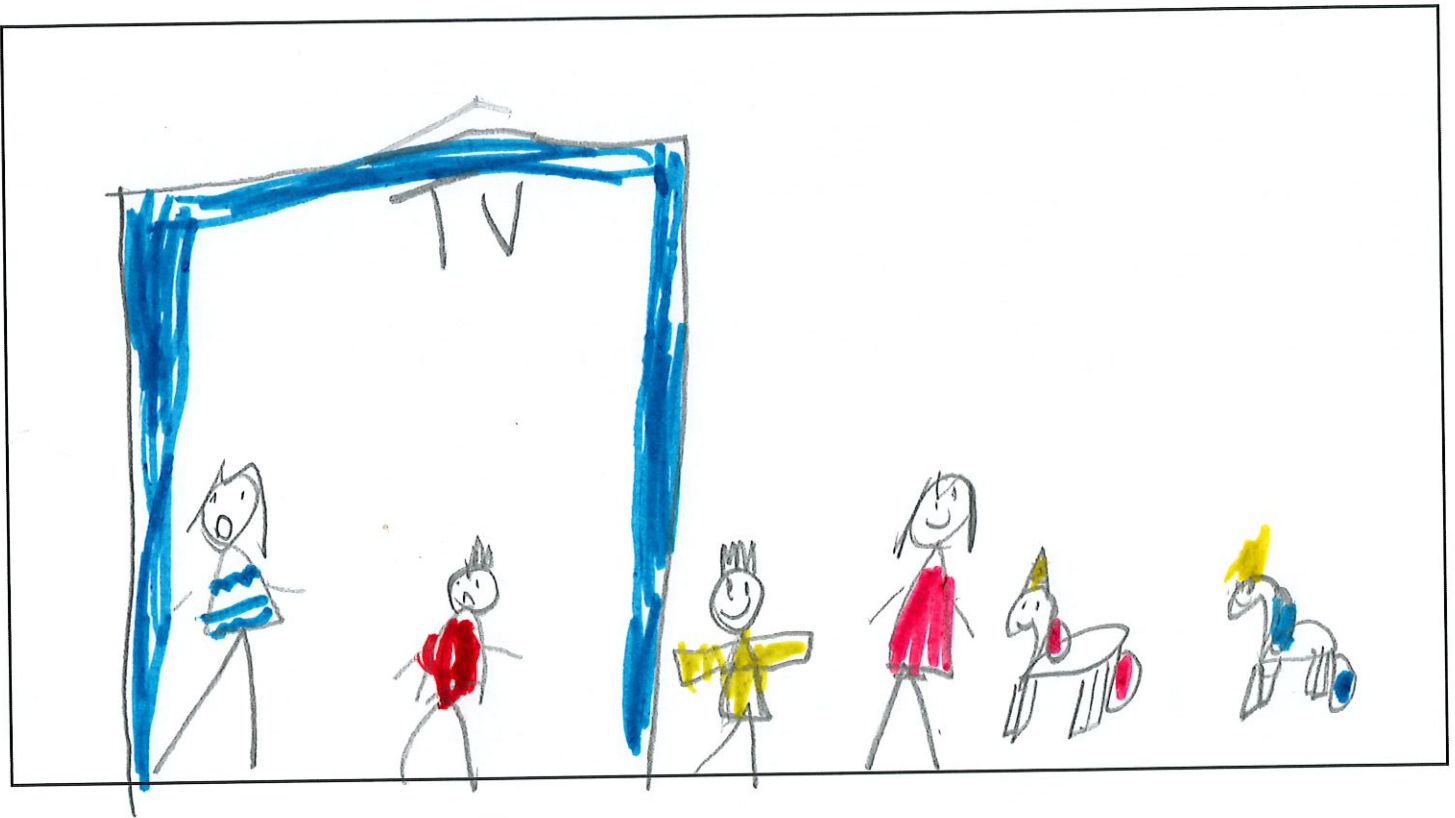

party with the unicorn

friends and the human

friends. They had so much

fun. They watched a

movie and they played

together. It was awesome.
the end!
