

Inferno and Nick's

Adventure

---

---

BY: Hudson K

When I (Nick) looked  
out the window  
I saw a half  
moon. All of a  
sudden a dragon  
appeared, headed  
straight for Nick's  
house.

Can you help me  
rescue her?"

When the dragon  
saw him he said  
"My name is In-  
ferno. My mom  
was captured by the  
evil Ice Witch.

Inferno explained  
to Nick what  
happened. Nick decided  
he would help  
Inferno and they  
talked about the  
different obstacles  
they might encounter  
and how they would  
defeat it.

"Let's go in to the  
Forest of Doom and  
rescue your mom"  
said Nick.

The first obstacle would be the ghosts of death who smell the living and suck out your soul.

Without your soul you would die and become a ghost of death!

"Oh no!" cried

Nick, "I see the ghosts of death!"

Nick and Inferno pretended to be ghosts.

They dragged their

feet to look like they were floating. None of the ghosts were suspicious. Nick and Inferno were able to pass the ghosts of death and enter the next part of the forest.

The second obstacle would be to fight the Ice Witch's dragon Beam. The Ice Witch put a spell on Beam to make her shoot lasers from her eyes.

Inferno and Beam fought with fire and laser.

They burned down half the forest.

During the battle, Nick realized Beam

had no wings. He called Inferno to come to him

and climbed on his back. He told Inferno to fly above the blazing forest. They flew above the forest on fire. Beam realizing she was surrounded by fire was stuck and burned.

Finally, they were at  
the Ice Witch's Dungeon.  
While Inferno was  
battling the Ice Witch,  
Nick was able to get  
into the dungeon and  
release Inferno's mom.  
With mommy dragon and  
Inferno's fire breath  
combined, they were  
able to melt the Ice  
Witch and defeat her.

Inferno and his mom  
were happy to see each  
other again.

Inferno flew Nick  
back to Nick's house.  
They had become  
great friends during  
their adventure and  
agreed every time there  
is a half moon they  
would meet at Nick's  
window.
