

Name Yumi

A magic rabbit and the clover  
(Title)

When I look out the window...

I see clovers all around the garden

I go outside to find four leaf

clover but I didn't. Next day when

I was walking in the garden I saw a

brown rabbit. Rabbit handed me a

paper and the paper said "Follow that

rabbit to come here." So I did. I followed

the rabbit across the river and

I saw a big tree. And there was a big door and the rabbit went in. So I did. Inside the door, there was a big rabbit and the rabbit said "welcome" and rabbit handed me a four leaf clover. And I was so happy and I got home. The next day I had many lucky things. Next day, I brought a carrot to give it to the rabbit. But

I couldn't find that tree and rabbits. Next day I broke my waterbottle at school. I was so sad. That day after school I found that rabbit again. And I follow the rabbit. This time the tree was at the back of the school. And they gave me a new waterbottle. I think that they gave us whatever I want or need. Next day my friend said "Yesterday I forgot to bring my lunch and I saw a brown

rabbit and a big tree. Inside the tree there was a big rabbit and they gave me a lunch!" "The same thing happend to me" I said. That day at home I was thinking that the rabbits are moving around the world to give something to their kids. So now I don't need to worry about anything.

"wake up!" I heard my mom. And it was just a dream. I went downstairs to eat breakfast. I was looking out the window. There, I saw something that are long and brown...
